

## Sponsorship packages

The International Thin-Film Transistor Conference (ITC) 2022 brings together thin-film transistor (TFT) academics and experts from around the world to share recent developments for progressing large area electronics applications. As TFT applications broaden and expand beyond traditional markets, the 17th ITC will provide a platform for sharing the research progress and discussing the challenges in this field.

ITC 2022 invites organisations in related fields to sponsor and exhibit at the conference. ITC is the ideal venue for introducing the latest developments to the attending international researchers and engineers, in-person and online. Mutual benefits extend beyond product and service advertising, to collaboration and technology transfer opportunities.

### Sponsorship packages

	BRONZE £500	SILVER £1,000	GOLD £2,500
